CAREER PROFILE

I have a strong interest in Artificial Intelligence and Data Science, along with basic technical knowledge and good problem-solving skills. I enjoy working with data, learning new technologies, and collaborating with teams to solve real-world problems. I am seeking an opportunity in an organization where I can apply my knowledge, gain hands-on experience in AI and Data Science projects, and grow professionally.

AREA OF INTEREST

- Artificial Intelligence
- Data Science

TECHNICAL SKILLS

- Python
- Java
- C

SOFT SKILLS

- Communication
- Teamwork
- Adaptability
- Time Management

EDUCATIONAL DETAILS

B.Tech (Artificial Intelligence and Data Science)
M. Kumarasamy College of Engineering | 2024–2028 | CGPA: 7.7

HSC – Kalaimagal Kalvi Nilayam Higher Secondary School | 2024

SSLC – Kalaimagal Kalvi Nilayam Matriculation School | 2022

PROJECTS DONE

1. Online Course Progress Tracker
Domain: EdTech (Education Technology)
Technologies: Java, AWT, Swing, OOP
Description: Developed a system to help learners track course completion, pending modules, and overall progress. It helps users monitor their learning progress and complete courses on time.

2. DigitalQueue Management System for Canteens
Domain:Queue Management / Information Technology
Technologies: Java, Swing, OOP
Description: Developed a digital system to manage canteen queues and issue queue numbers. It helps reduce waiting time, avoid overcrowding, and improve canteen service management.

3. Undo and Redis Mechanism
Domain: Data Structures
Technologies: Java, Stack, Data Structures
Description: Developed an Undo and Redis mechanism using stacks to reverse and restore recent user actions. It helps users correct mistakes and improves application usability.

CERTIFICATIONS

- NPTEL – Introduction to Internet of Things – 2025
- NPTEL – Climate Hazards and Disaster Mitigation – 2026
- Certified in Introduction to Artificial Intelligence – 2026
- Certified in IBM Skills Build – 2026
- Certified in Data Science Methodology – 2026

CO-CURRICULAR ACTIVITIES

- Participated in Exploring IoT Technologies Workshop in Kongu Engineering College 2025
- Participated in Hackathon event in Government College of Engineering 2026
